

Happy Solstice! NOPHFN 12/20/21

Barring icy roads, we will meet this Wednesday, Dec. 22nd from 10 a.m. to 11:30-ish at the Highway 20 Roadhouse in P.T. Enter the Cafe at the front and turn left; go through the first door you come to, which is the banquet room. Come early for breakfast and chatting if you wish (you can order coffee and/or breakfast at any time). We haven't decided whether or not to meet *next Wednesday*, so we'll take a vote at the meeting.

As far as I can tell, the Jefferson County Board of Commissioners will continue to meet on Monday mornings at 9:00 a.m. Check in on the website Zoom link to listen and/or contribute your statement. Public comment is always up first. The board has decided to reduce comments to two minutes (SEE STEPHEN'S STATEMENT, BELOW). For shame! Please write in to protest this and the way they block the chat box and don't let us see each other on the Zoom.

CLASSIFIED AD: The Port Townsend Free Press is looking for someone with guts of steel and the patience of Job to transcribe officials' public statements. If you have nothing but time on your hands and feel a little masochistic now and then, please drop us a note at editor@porttownsendfreepress.com.

CHILDREN

A BIG THANK YOU to Raven and Addy for standing in the howling tempest to protest the vaccine clinic for children in Chimacum last Saturday!

***Raven:** It was a cold wet and windy one... just Addy and I. Much support from passersby. Minimal heckling. No balloon man. Maybe he's just a fair weather cheerleader.. or... he knew his balloons and sign would have been blown to smithereens. There was an afternoon injection session, 1-4, for people who wanted to really seal their doom.*

THANK YOU ALSO to Don Po. who also came out to oversee, but these stalwart souls hadn't yet appeared, so he left. Thankfully his services weren't needed.

A sample letter you can use to push back and explain to schoolmasters and health authorities why their policy makes no sense: <https://www.lewrockwell.com/2021/12/vasko-kohlmayer/keeping-unvaccinated-children-from-school-is-discrimination-with-no-medical-or-scientific-basis/>

16,000 physicians and scientists agree that kids should not get the covid vaccine:
<https://childrenshealthdefense.org/defender/physicians-scientists-kids-should-not-get-covid-vaccine/>

An ICAN-funded lawsuit has struck down the Covid-19 vaccine mandate to attend school in San Diego, California! This is the first COVID-19 vaccine requirement in the country to be struck down in a final ruling.

INTERNATIONAL NEWS

GERMANY: FIRST THE BAD NEWS....

From Don Pr.: This is in Germany for the moment, but this is what they are trying to set up here, too. It's only a matter of time: <https://www.infowars.com/posts/video-german-health-minister-calls-for-immediate-forced-vaccination-of-entire-population/>

From this report and others, we can see they are calling for endless vaxxines, endless boosters, endless lockdowns, for a "variant" that is reported to be mild, for a "virus" that is now 100% curable if treated early, after which people will have perfect natural immunity for it and all "variants". The more vaxxines, the more "variants" are created. They are deliberately setting up a situation where everyone is "chasing their own tail". Until...WHAT? The "Great Reset?" The "Great Digital Dictatorship" as Dr. Mike Yeadon predicted?

GERMANY: NOW THE GOOD NEWS: Court in German region of Lower Saxony rules against vaccine passports: <https://reclaimthenet.org/court-in-german-region-of-lower-saxony-rules-against-vaccine-passports/>

It seems that our cause has been having some wins at the state and local courts, as we have noticed in the U.S. in previous emails.

JAPANESE GOVERNMENT TELLS CITIZENS NOT TO DISCRIMINATE:

<https://www.activistpost.com/2021/12/japanese-government-tells-citizens-dont-discriminate-against-the-unvaccinated.html>

U.S. AND LOCAL

From Stephen S. To the Board:

Dear Jefferson Board of Commissioners,

Public comments were truncated from 3 to 2 minutes each at the last two Board of Health meetings, despite only having 2-3 local commentators on queue. Both meetings included a ringer from out-of-county during the public comment period, which is your call, but shouldn't detract from comment opportunities for actual county residents.

So my own comment had to be fast-talked before being cut off by the chair. To recapitulate, I was asking Health Officer Berry for clarification of her confusing public accusation that a Port Townsend Free Press "article claims that a person in Jefferson County has suffered a long-term disability because of their vaccine, and that is actually not true. We have not had any cases of that."

<https://media.avcaptureall.cloud/meeting/ff87cb9d-7fa4-4f1f-a457-a606cf1df03c>

<https://www.peninsuladailynews.com/news/three-die-from-covid-19-in-clallam-county/>

But a 27-year-old Port Townsend resident is on record with documentary evidence from Virginia Mason that she had 2 heart attacks and 70% loss of function caused by Covid vaccination. So I'm trying to understand precisely what Dr. Berry is attacking as "truly false". Is she claiming this event didn't happen? Or is she parsing words and claiming loss of heart function doesn't constitute "long-term disability"? Contrary to her mistaken statement, neither "long-term" nor "disability" appears in the original article.

<https://www.porttownsendfreepress.com/2021/11/21/young-heart-damaged-by-pfizer-vaxpt-woman-27-now-has-heart-of-an-80-year-old/>

<https://www.clarkcountytoday.com/news/report-part-ii-young-womans-heart-believed-to-have-been-damaged-by-pfizer-vaccine/>

I also find troubling Dr. Berry saying she "can't confirm or deny any individual patient's experience" due to "very stringent rules around patient privacy", but then goes on to say "what we do know" is that the "long-term disability" experienced by an individual patient is

"truly false". Frankly, I don't know what to make of her self-contradictory statements, but it appears that Dr. Berry is trying to have it both ways by publicly accusing a patient of being a liar while pretending it would violate "patient privacy" to present any evidence for her privacy-violating accusation.

Dr. Berry regularly campaigns against what she calls "misinformation", but from what I've seen, she may be the number one misinformation super-spreader on the peninsula.

<https://www.porttownsendfreepress.com/2021/10/03/health-enforcers-catch-misinformation-fever/>

Commissioners, it is not good enough simply to say you "back Dr. Berry" regardless of whatever she says or does. Please attend to the specifics of the questions I have raised. I am trying to give you and your employee an opportunity to clarify or retract statements that on their face appear to be actionable slander, violation of HIPAA privacy rights, and abuse of public office.

Yours truly,
Stephen Schumacher
Port Townsend, WA

We all knew they push had to us as time goes by. They are cult and they know what they are doing to us. This is from Japanese friend and they will not stop pushing this to kids. <https://www.boisestatepublicradio.org/2021-12-17/pfizer-plans-to-test-a-third-dose-of-its-covid-vaccine-on-infants-and-young-children>.

Their aim is to push all of humans to forcing mRNA gene therapy and to push his the vax passport app that is created by Microsoft. But their real aim is to implant chip into our hand. So people who even got the mRNA should not get anymore booster to comply. As they keep comply, they can push even people like us who have never gotten the jab. And if it happens, they win and game is over.

I just attached the screen shot picture of agenda 21. Target are following the manual for a long time whatever they aggressively passing bills in the past. Japan is the same way I know. Some people say that this is not a real one but as you can see each goals on the agenda, "mandate multiple vaccine" "restriction of unnecessary air travel" "End of fossil fuels" so on.....(that is why Tesla as electric powered car but you can't travel longer distance that can control state to state border crossing trips) Those are what we have been pushing us.

I feel like that they even enjoy how to manipulate people who have no idea taking the jab. We live such horror but I truly appreciate that I meet you all in my life right here in Washington state. And meeting you all is my gift during this hard time. And to me, it is the joy of my life I can say.

Subject: Bills that will likely be passing in NYS in Jan 5th

Hi all, Attached picture of NYS bills that will likely be passing in Jan 5th. I got this information from my friend lives in Seattle who was laid off by Seattle public school. If this is true, this seems very crazy. And we know that this is the same manual by entire world so if NY does, it will be pushed into any big cities first. I was kind of feel good to know that California state now postponed the mandate to kids until next Sept....This is just crazy to see how many bills they try to force us although We all know that Agenda 21 is pushing us all multiple mandate vax in addition to restrictions.

As for Hood Canal bridge yesterday, we were there and this new guy joined us. He was the guy who parked his car and came to talk to us for a month ago and he was there yesterday.

Thanks Don for the video link for Dr Robert Malone I shared with my friends in Japan. Seems like that the Dr Malone's

Thanks Ben for the video link for Dr Robert Malone I shared that my friends in Spain seem to like that the Dr Malone's evidence video was also showed in Kamakura city in Japan that this senator brought to the city hall. ~Yukari
